

Life

*Time - time to make friends and a time to sort out
what is the message your phonecall's about
who will be there when you need someone
badly to lean on*

*Life ain't what it seems
a thing to execute
Take what you deserve
accept no substitute
Working, sleeping, fightin', dyin'
there must be more to life
Love me tender, hit me hard
my strong will will survive*

*Cryin' - sometimes it's sadness and sometimes it's pain
sometimes you loose what you've not even gained
a hole can be yawning that's bigger than
in your worst nightmares*

*But love - don't expect nothing but give all you can
don't fall victim to self-pity and
take while you can `cause there's no use
in self-sacrifice too*

*Life ain't what it seems
a thing to execute
Take what you deserve
accept no substitute
Working, sleeping, fightin', dyin'
there must be more to life
Hit me tender, love me hard
my strong will will survive*
