

Runaways

No worries `bout tomorrow, don't care about the past
living on the edge while every day could be the last
We embraced the whole world, thought we did it right
We were invincible like Bonnie and Clyde

No one could stop us then - together `til the end
No rear-view-mirror and no brakes to take the bend

Another perfect day - another game to play
searched for our big fortune like needles in the hay
Another perfect day - don't need no place to stay
stuck in our dream we thought we're heroes for a day
We were runaways

Don't matter if we're famous, don't matter if we're rich
as long as we're together life ain't such a bitch
Were a suicide mission, racing side by side
We seemed invincible just like Bonnie and Clyde

No one could stop us then - together `til the end
No rear-view-mirror and no brakes to take the bend

Another perfect day - another game to play
searched for our big fortune like needles in the hay
Another perfect day - don't need no place to stay
stuck in our dream we thought we're heroes for a day
We were runaways

We took the fastest lane, kept passing every bay
from east to west we had to make it in a day
The everlasting highway - so promising and wide
Sunbathing days made us forget about the night
