

Trapped

You got me on the line whenever I try hard to be myself
You keep me for a while to me it seems like stayin' noon to twelve

Anybody help me out - won't somebody hear me prayin'
Anybody comfort me - is it the price I'm payin'
All my friends look for me - would you please remember my face
Anybody set me free - I just came to lay my head now I'm stuck in your bed

Thank god I'm out of crime - otherwise I might be doomed to love
I hope that it's just a game when I see the thing you're holdin' in your glove

Anybody help me out - won't somebody hear me prayin'
Anybody comfort me - is it the price I'm payin'
All my friends look for me - would you please remember my name
Anybody set me free - I just came to lay my head now I'm stuck in this bed

You got me on the line - to accept your invitation wasn't clever
You keep me for a while - to me it seems like stayin' here forever

Anybody help me out - won't somebody hear me prayin'
Anybody comfort me - is it the price I'm payin'
All my friends look for me - would you please remember my face
Anybody set me free - I just came to get laid, now I'm really late

Anybody get me out - won't somebody hear my cryin'
Anybody comfort me - I'm a bit afraid of dyin'
All my friends look for me - would you please remember my name
Anybody set me free - or should I stay a little longer??
is it really all that bad?
